PROFESSIONAL SUMMARY

Frontend Developer with **1+ year of professional experience** at GegoSoft Technologies and a **10-month Full Stack Development internship**. Builds responsive, production-grade web applications with **React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3 and Tailwind CSS**, integrating **REST APIs and GraphQL** and managing state with **Redux Toolkit and TanStack Query**. Delivered enterprise healthcare (HIS/EHR) and e-commerce/POS platforms, with strong skills in real-time features (WebSockets), role-based access control (RBAC), reusable component architecture and frontend performance. Working knowledge of **Node.js, Express.js, MongoDB and JWT authentication**.

PROFESSIONAL EXPERIENCE

Frontend Developer | July 2025 – Present
GegoSoft Technologies (OPC) Pvt. Ltd. – Madurai, Tamil Nadu

- Develop and maintain production-grade frontend applications using **Next.js, React, TypeScript, Tailwind CSS, Redux Toolkit, TanStack Query, REST/GraphQL APIs, Axios and WebSockets**.
- Contribute to **LifeBridge / SmartDocx AI**, an enterprise HIS/EHR platform supporting **20+ hospitals** (see Key Projects).
- Implement **RBAC and permission-based routing**, authentication and API error handling across modular, reusable TypeScript components.
- Build enterprise data interfaces with **AG-Grid and TanStack Table**, reusable forms, filters and responsive dashboards.
- Optimize applications using **lazy loading, code splitting, memoization, caching and request deduplication**.
- Collaborate with backend developers and UI/UX designers in an **Agile/Scrum** team to deliver responsive, cross-browser, mobile-first interfaces.

Full Stack Developer Intern | July 2024 – May 2025
Why Global Services

- Developed responsive full stack web applications using **React.js, JavaScript, HTML5, CSS3, Tailwind CSS, Node.js, Express.js and MongoDB**.
- Implemented **REST APIs, JWT authentication, role-based authorization** and real-time features with **WebSocket/Socket.io**.
- Built reusable frontend components, responsive layouts, forms and API integrations.
- Used **Git/GitHub**, deployment workflows, debugging and testing in cross-functional development.

KEY PROJECTS

LifeBridge / SmartDocx AI – Enterprise Hospital Management, HIS & EHR Platform
Role: Frontend Developer | Tech: Next.js, React, TypeScript, Redux Toolkit, TanStack Query, Tailwind CSS, Axios, GraphQL, WebSockets, AG-Grid

- Developed end-to-end clinical workflows: patient registration, MRN search, appointments, check-in, clinical visits, prescriptions, diagnostics and patient history.
- Built inpatient admission, bed allocation, ward/room management, transfers and discharge with a **real-time bed board** driven by WebSocket events.
- Created role-specific doctor, receptionist and administrative dashboards with **permission-controlled modules**.
- Developed EHR modules for allergies, medications, vitals, medical history and clinical notes, plus an **HTML5 Canvas digital signature** integrated with PDF/print workflows.
- Integrated healthcare AI features including **AI Scribe, speech-to-text, SOAP note generation and an AI clinical assistant**.
- Built a **dynamic questionnaire/form builder** with validation, conditional logic, public patient forms, response review and export/print.

ATM Crackers – Omnichannel E-Commerce & POS Platform
Role: Frontend Developer | Tech: Next.js, React 19, TypeScript, Tailwind CSS, Axios, Formik, Yup, React Context API, REST APIs, Recharts

- Developed a unified **customer storefront and Admin/POS platform** for retail and wholesale operations with role-based areas.

- Built customer workflows for product browsing, search/filtering, cart, wishlist, checkout, order tracking and digital invoices.
- Developed high-speed **POS billing** with product search, category filtering, persistent draft cart, discounts, taxes, payment tracking and **thermal/A4 invoice printing**.
- Implemented admin modules for products, categories, inventory, pricing, orders, coupons and promotions, with full **order and payment status workflows**.
- Implemented **JWT authentication and RBAC** for customer, Super Admin, Store Manager and Billing Staff roles.
- Improved performance with **client-side caching, request deduplication, pagination/infinite scrolling and image optimization**.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, shadcn/ui, Responsive Design, Cross-Browser Compatibility

State Management: Redux Toolkit, TanStack Query, React Context API, React Hooks

APIs & Backend: REST API Integration, GraphQL, Apollo Client, Axios, Node.js, Express.js, MongoDB, JWT Authentication

Real-Time: WebSockets, Socket.io, GraphQL Subscriptions

Forms & Data: Formik, Yup, Zod, AG-Grid, TanStack Table, Recharts

Documents & Printing: jsPDF, html2canvas, HTML5 Canvas, thermal receipt and A4 invoice generation

Security: JWT, RBAC, permission-based authorization, Axios interceptors

Performance: Code splitting, lazy loading, debouncing, request deduplication, client-side caching, image optimization, SSR, SSG

Tools & Practices: Git, GitHub, Vercel, Postman, Figma, Vite, ESLint, Prettier, Agile/Scrum

EDUCATION

Master of Computer Applications (MCA) | 2024
Hindustan College of Engineering & Technology | CGPA: 7.93 / 10
Relevant Coursework: Web Technologies, Data Structures, Software Engineering

CERTIFICATIONS

- Full Stack Development – Why Tap Academy, 2024
- Embedded Systems with IoT – Gateway Software Solutions, 2024
